Learn Chinese 2008 Crack Torrent (Activation Code)

Learn Chinese 2008 is a learning toolbox for individual Chinese vocabulary learning. It allows the learner to focus on a specific task and to manage a list of words that he has to learn. It allows him to organize the words to be studied in a way that suits him the best. For example, the learner can organize words into different categories. He can also use word lists that are generated from previous test results. This allows him to view the results more easily. As a result, the learner is more motivated and therefore, he can focus better on the learning process. The product comes with a dictionary, a word-list manager, a text assistant and a text-to-voice converter. With these functionalities, the learner is able to study his vocabulary quickly and at his own pace. This toolbox is also very easy to use and is able to keep track of its learners' progress in real time. The learner is also able to use the product in any educational environment. The program provides its functionality on several platforms including Windows and Mac OS X. The product is completely Free. It does not include any proprietary or antivirus software and is completely Free. It does not include any link to any third party software (like Yahoo, MSN, Baidu). Learn Chinese 2008 comes with a 60-day free trial. Learn Chinese 2008 can be purchased at the address below. It is distributed in 32 and 64-bit versions for Windows and Mac OS X. Features Learn Chinese 2008 has been designed to work with all modern operating systems (Windows, Linux, Mac OSX and others). ☑ Over 10.000

What's New In?

Learn Chinese 2008 is a learning utility for Chinese vocabulary that has been developed over the past years by a team of teachers and students. It has been designed to fulfill the needs of a wide range of users. It allows students to overcome the initial difficulties of the Chinese language by allowing them a rapid access to reading Chinese texts. It measures results and provides objective feedback on individual progress made. It allows students to complete their work quickly and on their own time. It provides a direct and easy-to-follow, step-by-step teaching method to learn to read and understand Chinese texts. Its working is based on personalized lists in order to follow closely the needs and progress of the user. Features: ☑ A powerful dictionary ☑ A powerful statistics module ☑ A powerful text-to-vocabulary assistant ☑ Audio pronunciations ☑ Click-based audio translation of vocabulary ☑ Character animation for thousands of characters ☑ A Chinese-English and English-Chinese dictionary. The dictionary is well-structured and allows you to search quickly in a good level. ☑ Multi-list management ☑ The notion of list/libraries disappears ☑ Keyboard shortcuts allow fast access to list functionalities : ☑ Ctrl N : New list ☑ Ctrl O : Open a list ☑ Ctrl S : Save a list ☑ Ctrl F4 : Close a list ☑ Ctrl Tab : Switch from a list to another ☑ The "Results and statistics" window is replaced by "Quizzes". ☑ You can now select the dictionary that you want to use directly in the dictionary window, without modifying the Preferences. ☑ Multi user management ☑ A new module is called Results and replaces the old statistics window This is a powerful statistics module to follow quiz results and progresses. For example it is capable of generating lists of words that need to be revised based on result history. ☑ Integration with ChinesePod This new mini-window allows you to listen to your favorite Chinese podcast from within Learn Chinese 2008. ☑ Quizzes Quizzes are now presented as icons that you can double-click to start practicing. Results are updated in real time during the quiz. They are represented by a 4-level segmented graph representing your knowledge of words with colors. ☑ Network features Learn Chinese 2008 can be optionally set to work in Network mode. In this mode, students can use the product on any computer in an organization and have directly access to their personal documents and data (Vocabulary lists,
