It took no longer than an hour and the results were incredible. Tue, 13 Jan 2016 17:07:39 +0000Antimatter Admin, Post yours too! This is my first video. I hope you like it! KillAngel 5.0 If you are looking for a new fantasy MMORPG, then this one is a great choice. I would say you are looking for something a bit different than the other big name MMORPG's. If you are a fan of Diablo or Ultima Online then you are going to love this game. The action combat is something that a lot of other MMORPGs lack. There is a skill tree which allows you to be as different as your dream version of yourself. It's a mature game. You do not have to put up with a bunch of dumb kids or anything like that. It's a fantasy MMORPG and who doesn't like that. The character growth doesn't feel weak, like you would think some games would have, you can become quite powerful by just thinking about it. You can go through multiple tiers and grow to become a very powerful warrior, or mage. You can even create your own class and live out your dreams. As far as questing goes you get some decent content and no game should be without that. There are several dungeons which are filled with mobs and enemies that you could easily kill to get some loot. You will be rewarded for your efforts with items and gold. You can grind for gold until it's so that you can afford the gear you are craving. There is a daily quest (over 1000 I believe) that a group of four should be able to take on with ease. It's a little story driven and you are able to choose your own ending. It's a short game but a fun one. There are some bugs with the game right now, but it's the game that you are able to play for free. That means you don't have to put up with the lame content that other games have. Do yourself a favor and play this one. You will not be disappointed. Update. This game is very good, 10/10. The game still is a bit buggy, but the game itself is great. The graphics are great and you can see your character fighting. The questing is very good and the story line is great. This game is worth your while to try out, the game is awesome. Highly recommended. Jhoria77 4.0 I'm going to make this short and sweet. I was really hoping that this game would be different. It takes so much of what's wrong with other MMO's like World of Warcraft bff6bb2d33
