x: x: x: x: x: x: x: x: x: x: x: x: x: . All these tools will live, by default, in C:\Program Files\Microsoft Windows.As a part of its zero-waste lifestyle campaign, Jio in partnership with Akamai Technologies today announced that Jio is now the first company to make use of the company's Intelligent Network Optimization Service. According to Jio, the zero-waste campaign is aimed at generating a demand for newer and better services which will eventually solve the waste problem in India. As a part of this campaign, the company has engaged Akamai to make use of their cloud-based network optimization service to ensure that its service is always "connected". With mobile penetration having now reached almost 100 per cent in the country, Jio pointed out that this is the largest ecosystem in the world with large number of customers and devices on the network. By deploying the cloud-based service, Akamai will ensure that only the content that a customer is interested in will reach his or her device. Speaking about the same, Rajat Mukherjee, Senior Vice-President & Managing Director, India and South Asia at Akamai Technologies said, "We are proud to partner with Jio as this is the largest ecosystem in the world with more than 100 million active devices using the service. Once the zero-waste campaign becomes a reality, one hopes that this enormous ecosystem will lead to a significant reduction of waste." Jio, along with its services partner Akamai Technologies, launched its zero-waste campaign last year. To date, the campaign has used technologies like Lens and Reverse Internet Search, to target users of Jio's services. In this regard, Jio has partnered with Lens, which is a service of Amdocs, a service provider for telecom

---

operators. Mukherjee further added that while the network is the key service to help Jio deliver the zero-waste campaign, the company in turn intends to build sustainable ecosystems by working with their customer base and partners. "We want Jio to join the zero-waste club. This campaign is about Jio not just using their network to provide zero-waste services but also increasing the footprint of its customers into the larger ecosystem of the country."Q: Having trouble with the "if" condition in a foreach loop I have a foreach loop that
